

Wise Men Go Green Policy

Through its Go Green Policies, Wise Men is committed to save the environment and contribute towards making Earth a better place to live in. Though we have been sensibly saving energy in our day to day efforts, we are now releasing this policy so that all our stakeholders can align with it.

Outlined below is green code of practices that we follow:

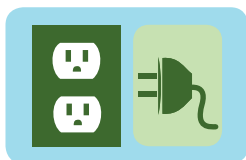

Switch off

Switch off lights and air conditioners whenever possible. Make sure you switch off all lights and ACs when leaving the office or conference room.

Day Lighting

Use the natural lighting instead of the office lighting whenever feasible.

Saving energy

Prior to logging out, Wise Men employees must unplug electronic devices and shut down systems to save energy.

Recycling

Recycle waste papers and reuse materials at every opportunity.

Partners

Wise Men is committed to align with green suppliers and partners.

Saving miles/gas/petrol

Wise Men employees to have virtual meetings, web conferences rather than traveling all the way.

Save Paper

Wise Men encourages employees to follow digital media instead of printed material.

Avoid Plastic Bags

Employees are urged to use bags that can be recycled, preferably cloth bags which can be re-used time and again rather than using plastic bags.

Bi-annual Green Earth Campaign

At Wise Men we conduct an awareness campaign aligned with our Go Green policy twice in a year.

Training

We train our staff once in a quarter on how to be a responsible corporate green citizens.

Save water

Wise Men employees are mindful of utilizing water in the best manner.

Conduct Annual Go Green Surveys

Wise Men conducts yearly surveys internally and encourages employees to give suggestions to make this initiative better.

Digital/Cloud storage

Digital/Cloud storage solutions to cut paper and reduce clutter are followed across the organization.
