Introducing the Easy Button Package from Wise Men Consultants!

What is the Wise Men Easy Button Package?

The **Wise Men Easy Button** is a **business transformation as a service** offering. It is a bundle of products, tools and services that facilitate the journey to Cloud within one simple commercial construct. It brings together what you will need to transform your business in a way that works best for you. It removes complexity and guides our clients in their business transformation journey. **The Wise Men Easy Button offers a faster time to business value and the flexibility Utilities require without the typical high upfront investment.**

Simple end to end solution package with single subscription offering the following:

- Business Process Intelligence Services
- Embedded Tools and Services
- SAP S/4HANA based Cloud deployment model of choice
- Infrastructure as a Service subscription package (Hyperscaler of choice)
- SAP Business Technology Platform Consumption Credits
- SAP Business Network Starter Package
